

TEN THOUSAND
VILLAGES

Cambodian Blue Fish Purse

In Cambodia, raw materials are precious. Makers re-use anything they can to cut down on waste. This eco-friendly traveller purse is ingeniously constructed from plastic fish feed bags, creating a lightweight and durable bag out of material that would otherwise end up in a landfill. Use it proudly to show your commitment to preserving our planet.

Materials:

recycled fish feed bags

About the Artisans

Rehab Craft Cambodia

Rehab Craft Cambodia (RCC) creates employment opportunities for Cambodians with disabilities such as polio, HIV and land mine injuries. RCC does not hire on the basis of education or job experience. Instead, they are dedicated to providing training and opportunities for advancement within the company. RCC provides individual artisans with free business skills training and advice on design and marketing. Committed to the welfare of its members, RCC pays medical and maternity benefits to its artisans in addition to a fair wage. Members can also receive loans to purchase materials as well as loans for individual, family or emergency needs. RCC also pays for all expenses related to a given disability including prosthetics and wheelchairs.

Travel the world with each visit to Ten Thousand Villages.

Learn how Fair Trade really makes a difference. Our goal is to provide vital, fair income to artisans by marketing their handicrafts and telling their stories in North America. Ten Thousand Villages sells product from more than 30 countries, providing work for nearly 60,000 people around the world.
